

MAGICO BOX Tutorial

Install Magico Box Driver

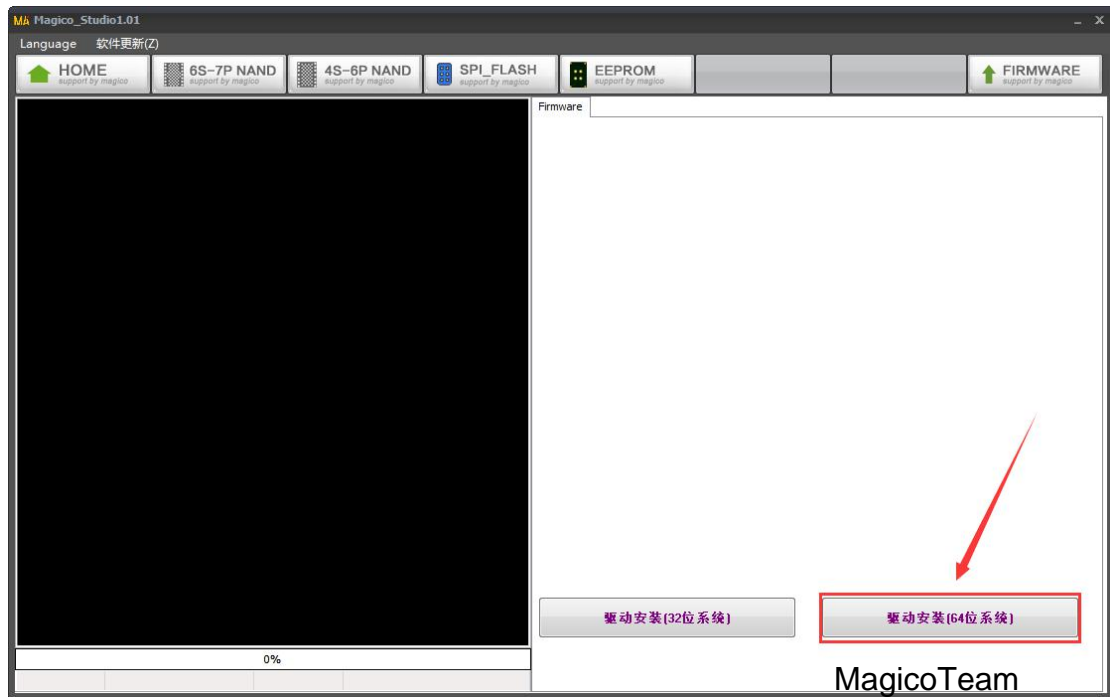

1. After installing Magico Box program software, a Magico Box icon will be added to desktop automatically. Double click this icon to run the program.
2. Click “Firmware” button

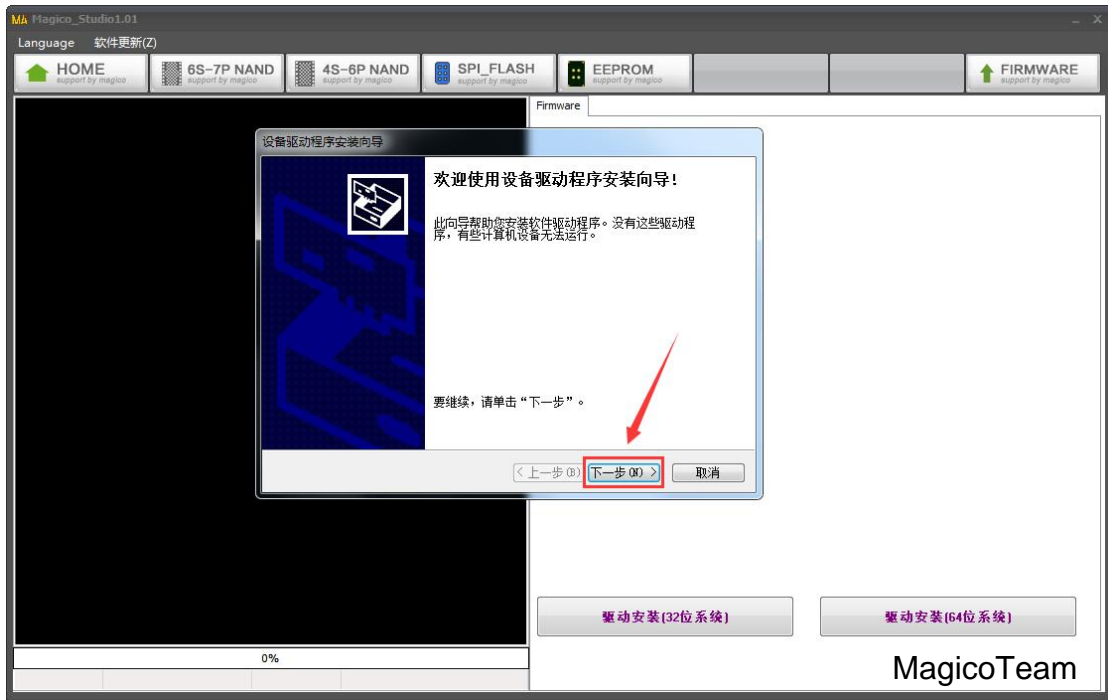

3. As the following picture shows, choose  icon, right-click and then choose “properties” to check if the computer is using a 32-Bit or a 64-Bit operating system.

4. We need to check 64-Bit operating system, thus choose 64-Bit system to install

5. Click "Next step"

6. Click “complete” and then Magico Box driver is installed successfully
